## YOUNG FARMER MET HORRIBLE DEATH IN BELT

**Ernest Schinzer, Aged  
21, Killed Thursday  
Afternoon.**

Ernest Schinzer, 21 years old, was instantly killed about 2:30 o'clock yesterday afternoon at the farm of his father, George Schinzer, 3 1/2 miles south of Ashton, when he became entangled in the belt of a feed grinder. There were no witnesses to the accident, and his body was not found until sometime later.

The young man was grinding corn in a crib, using a 6-horse power engine to drive the grinder. He was alone and when found a 6-inch belt was wrapped around his right arm. His injuries consisted of a fractured skull, bruise over the right temple, great cut in his forehead, bruised right eye, deep gash under his chin, broken nose and broken right arm.

The feed grinder was torn loose from the floor to which it had been fastened with heavy bolts through two by six pieces of timber.

The inquest was held by Coroner Whetston last evening about 7 o'clock and the verdict of the jury was that the young man came to his death by an accident when his body became entangled in the belt of the grinding machine. The indications were that his body was thrown about for some time before the power of the engine was reduced.

The sad accident brings grief to the entire neighborhood where the young man was very popular and was widely known.

## STATE'S ATTORNEY DID NOT ATTEMPT TO STOP INQUEST

**Dictator Kent Corrects  
Statement He Made  
to Jury.**

Attorney W. G. Kent, Dictator of the Moose Lodge, who demanded the inquest into the death of Webb Gaylor, today corrected a statement he made to the jury Wednesday evening, and stenographically reported as published in this evening Telegraph, in which he stated that Coroner Whetston had refused an inquest on information given by State's Attorney Harry Edwards and the Supervisor. Mr. Kent's correction of his statement is to the effect that Mr. Edwards did not communicate with the Coroner. His correction is: "Relative to the matter which appeared in last night's issue of The Telegraph concerning the inquest of Webb Gaylor, wherein a statement appears that statements made to the Coroner by the State's Attorney and Supervisor were such that an inquest in the matter was refused.

"I wish to correct this statement by saying that Mr. Edwards, state's attorney, did not communicate with the Coroner relative to this matter, but on the contrary Mr. Edwards advised that the Coroner be called in relation to this matter and act therein as his judgment dictated.

"I further wish to state that the State's Attorney, throughout this matter, has been perfectly willing at all times to co-operate in the investigation of this matter, and that I did not intend by such statement to reflect anything on him.

"Dated this 20th day of June A. D. 1919." W. G. KENT.

Each of the boys had a filled lunch basket when he left the Y. M. C. A. and with nice weather it was indicated that the event would be the biggest of the kind ever attempted here.

HARRY EDWARDS,  
Judge Heard's Order.

## LEAGUE FOES MAY NOT ASK VOTE ON KNOX RESOLUTION

By Associated Press Leased Wire  
Washington, June 20.—There were growing indications today that opponents of the league of nations might abandon all efforts to force a test vote on the subject in the senate before the opening of the peace treaty at Versailles Monday.

Hope of bringing a roll call on the Knox resolution virtually had been abandoned, and some leaders thought it might be permitted to do without even coming formally before the senate for action. It was designed to give notice of opposition to accepting the league covenant along with the peace terms, and in the general opinion it will cease to serve its purpose after Germany has

## FARMERS' TRIP TO URBANA ABANDONED

The proposed excursion of Lee county farmers to the Illinois State College of Agriculture at Urbana, which had been set for next Friday, has been abandoned. Continued rains have put the farmers back so far in their work that many who would have liked to have taken the trip felt they could not spare the time and consequently County Farm Adviser L. S. Griffith did not receive enough answers to justify a guarantee of 125 round trips necessary to secure the special train.

Mr. Weybright, of Franklin Grove, was in Dixon yesterday.

**WHY ORLANDO QUIT**  
By Associated Press Leased Wire  
Rome, Thursday, June 19.—(Delayed)—"Remain faithful to our duties toward the allies," was a passage in the address of Premier Orlando today which turned the tide against the premier and resulted in the resignation of the Orlando cabinet. The premier's words aroused the anger and hostility of the deputies, several shouting across the chamber at the government bench from which the premier was speaking. There was a great tumult and cries of "the allies have never been faithful to us. Why should we be faithful to them?"

## Liquor Tax Stamps to Be Issued After July 1, Roper Says

By Associated Press Leased Wire  
Washington, June 20.—Although forseeing "no reason to doubt that wartime prohibition will become effective July 1," the internal revenue bureau, in accordance with an opinion of the attorney general, will continue the sale of tax stamps for intoxicating beverages after that date. Commissioner Roper said, however, the sale would be with the distinct understanding that the manufacture or sale of prohibited beverages was in no way authorized.

Commissioner Roper explained that the bureau necessarily would continue to enforce the laws as related to alcoholic beverages until they were repealed by congress. No provision for repeal is contained in the legislation now before congress for enforcing war time and constitutional prohibition.

## VANDALISM AT CEMETERY HERE IS DISGRACEFUL

**Patience of Authorities  
Has Become Nearly  
Exhausted.**

Numerous complaints are coming to Commissioner George Campbell, in whose department the care and upkeep of Oakwood cemetery is one of the important duties, concerning acts of vandalism that are perpetrated almost nightly. That such outrages are committed is a disgrace and the commissioner is making every effort to trace them to their origin.

Recently several hundred metal stakes were purchased to be placed at the corners of lots that are endowed for upkeep. The workmen in the cemetery and caretaker Talcott have discovered that in many instances the stakes have been pulled out of the ground and removed to lots not endowed for care and upkeep. This morning some of the stakes were found lying about on other lots, twisted out of shape so as to make them unfit for further use.

Quite recently a grave was dug in the cemetery late one afternoon and during the night, some person turned on a water faucet nearby with the apparent intention of filling the grave with water and causing great damage. A few nights ago all of the lawn mowers were tampered with and placed out of commission. Commissioner Campbell announced this morning that such acts would stop at once and gave out a warning that any person or persons caught tampering with the cemetery equipment would be arrested and given the maximum sentence as provided.

The communication asked for the reason why American troops crossed to the Mexican side Sunday night. The communication was received by General Erwin acted upon and referred to Major De Rosey C. Cabell, southern department commander.

## GOVERNOR HEARS FOES-ADVOCATES OF SEIZURE BILL

**Will Soon Take Action  
on Bill Passed By  
Legislature.**

By Associated Press Leased Wire  
Springfield, Ill., June 20.—The senate this afternoon by a vote of 30 to 2 adopted the report of the conference committee and passed the revised bill limiting working hours of women. A nine hour day is fixed in factories and mercantile establishments and other restrictions are placed on employers. The measure now goes to the house for concurrence.

By a vote of 32 to 0 the senate passed the omnibus bill carrying \$28,000,000 for departmental expenses.

## By Associated Press Leased Wire Springfield, Ill., June 19.—Governor Lowden heard both advocates and opponents of the "search and seizure" bill at a public hearing today before taking executive action on the measure intended to enforce prohibition. He reserved his decision.

Levy Meyer, an attorney, of Chicago, who said he represented the people of Illinois as well as the brewers and distillers of Chicago, contended that the effect of the bill would be to "make Illinois bone dry after July 1." He called attention to the statements of "dry" leaders that the bill would apply only to territory "dry" by Illinois statute, and said this was not correct.

Clarence Darrow, a lawyer, also of Chicago, appeared against the bill, he said, in behalf of the labor liberty league and trades union organization.

In defense of the bill, Attorney F. B. Ebert of the anti-saloon league and senator W. S. Jewell, of Lewistown, spoke.

By a vote of 106 to 4, the house this afternoon passed the Glackin "zoning bill," authorizing city councils and boards of trustees in villages to regulate the height and bulk of buildings and to confine industries to restricted localities in order to protect residential sections from the encroachments of factories and business in the nature of public nuisances. It now goes to the governor.

Representative Roger Marcey, of Chicago attacked the bill on the ground that it conferred too much power on city authorities. It was defended by minority leader, Igoe.

A similar measure was killed in the house two years ago in the closing hours of the session, on a motion of Mr. Marcey to strike out the enacting clause.

Adjournment of the general assembly appeared possible a few hours earlier today when downstate members, opposing the increased bonding power program, agreed to permit the remainder of the sixty-nine bills of the series to be voted on in bunches. The final quota of the measures will be reserved until the last moment in order to hold members who otherwise might leave with a considerable number of untouched senate bills on the calendar.

## PAPAL CONTROL POSSIBLE UNDER LEAGUE, SHERMAN

**Separation of State and  
Church May Be End-  
ed, He Says.**

By Associated Press Leased Wire  
Washington, D. C., June 20.—A warning that the league of nations may end the separation of the church and state and bring the civilized world under the domination of the vatican was given in the senate today by Senator Sherman, republican, of Illinois, who declared the Roman Catholic church would be represented in the league assembly by 24 votes out of 45.

"From an early age," said the Illinois senator, "the occupants of the vatican have believed in the inherent right of papal authority to administer civil government. It is with the utmost regret I fail to find recorded in the course of papal claims of later days any renunciation or disavowal of the doctrine. So far as a layman can discover the vatican still believes it ought, and would if the power permitted, assume to administer ecclesiastical and civil government as its joint, exclusive and paramount power.

"I am not of that happy variety that care nothing for history. I am compelled by my habits of thought to admit its value in the affairs of men. We can no more ignore proper precautions with impunity and survive than the forgotten.

## STREET CAR STRUCK WATTS' TAXI BUS

Watts' taxi transfer buss was badly damaged and twelve passengers it contained were near death when a city car, in charge of Motorman Lapham, crashed into it on East Fellows street Wednesday night at about 10:30 o'clock. The automobile was turning around when the car, which witnesses say was traveling very swiftly, struck it. Fortunately the auto, which was being driven by Hugh Duffy, had nearly cleared the track before the mishap, otherwise it is reasonable certain some of the passengers would have been killed or seriously hurt.

Attorney A. G. Harris was a business visitor in Rockford yesterday.

## German Wireless Says Reports of Break Are Premature.

**REPORT PREMATURE?**  
By Associated Press Leased Wire  
Paris, June 20.—All reports concerning changes in the German cabinet are premature, says an official German wireless message sent from Nauen at 1 o'clock this afternoon.

The text of the message reads:

"The national assembly at Weimar tried to constitute a majority in favor of signing the peace treaty. That was impossible because of the division among the parties.

The message adds that the national assembly failed to get a majority of its members to favor signing the peace terms.

## SCHEIDEMANN CABINET QUILTS.

By Associated Press Leased Wire  
Paris, June 20.—The Scheidemann government in Germany has fallen, it was learned here today. News of the event, reported during the morning, was confirmed later by military advices through Coblenz from both Weimar and Berlin.

The downfall of the Scheidemann government was made known to the American delegation to the peace conference. It is believed to assure the signing of the peace treaty by Germany as Philipp Scheidemann, the premier, was understood to be the chief opponent to acceptance of the revised peace terms.

Noske May Succeed Him.

The early reports stated that Gustav Noske, the minister of defense, was forming a cabinet to succeed the outgoing government.

Previous advices had indicated that four members of the Scheidemann cabinet were insisting upon the signing of the treaty, and it is presumed here that this caused the fall of the ministry.

Up to noon there was no official confirmation of the report that Herr Noske was forming a government.

Ebert Also Removed.

It is understood here that the fall of the Scheidemann government entails the fall also of President Ebert. The national assembly probably will take measure to select a successor to Herr Ebert.

French official information on the German situation is to the same general effect as that received by the American delegation, namely that the Scheidemann-Ebert regime has collapsed. The French advices carry the impression that the national assembly is favorable to the signing of the treaty.

### FARMERS ASKED TO HELP FIGHT ON ARMY WORMS

**Farm Adviser Griffith in Appeal to Lee Co. Land Workers.**

Destruction by army worms of many acres of grain and meadows in Whiteside county and reports of the appearance of the worm in some parts of Lee county has caused County Farm Adviser L. S. Griffith to issue repeated warning to all of the farmers of this county and in a current bulletin to the members of the Soil Improvement association he says:

Since the last letter, we have had some reports of army worms doing damage and would urge you to look thru your grain fields and meadows for army worms. During the heat of the day most of them will be found curled up on the ground and will be gray or almost black in color with three light colored stripes down the back. They may also be found on the stalks of grain or grass, and when found in considerable numbers, may be moving from one place to another. The worms are from an inch to an inch and a half long, and are easily recognized when once seen.

The damage, to a very large extent, can be controlled by the use of poison bran mash which can be made as follows:

To 50 pounds of bran add 1 pound of Paris green or 2 pounds of powdered arsenate of lead. Mix well. Take the juice of 3 oranges and 3 lemons, or a half dozen of either and run the pulp thru a food chopper if possible. Add about a gallon of thick, cheap molasses and enough water to make the bran a damp crumbly mass when well mixed.

Scatter this mixture by hand at the rate of 5 to 10 pounds per acre where the worms are working, preferably in the late afternoon or evening or during a cloudy day. When the brain becomes dry it is not eaten readily and if necessary a second application should be made.

When the worms are moving from one place to another, they must be stopped or great damage will result to other fields. This can be done quite successfully by plowing a furrow six to ten inches deep, throwing the dirt toward the worms, leaving a straight, smooth side for the worms to crawl up, which will retard their movement. Then to catch them, it is necessary to bore post holes in the bottom of the furrow every 15 or 20 feet from a foot to 18 inches deep for them to fall into, and most of the worms can be trapped this way. They can be killed in the post holes with kerosene. Care must be taken to have a smooth furrow and straight edge or the worms will crawl up the side and proceed to the next field.

In case you find army worms near any of your crops, call this office at once and assistance will be given in controlling them.

### SISTER OF MENDOTA PASTOR IS MURDERED

Mrs. W. C. Neaville, sister of Rev. Coopridger, a Mendota minister, was mysteriously murdered Friday evening in her farm home, four miles southeast of Mt. Vernon, Ill. She passed away at the Egyptian hospital from gun shot wounds inflicted by an unknown person, who attacked her and her husband and little grandson, Robert, four years old. Mr. Neaville and the little boy were seriously wounded. A bullet lodged in Mr. Neaville's shoulder.

After being shot in the abdomen and with one arm shattered by another bullet, Mrs. Neaville lifted her grandson and tried to escape. As she carried the child, two bullets pierced both his legs, above the knees. Mortally wounded, she managed to reach the telephone and give the alarm to neighbors.

It is believed that two men made the attack, one concealed outside shooting through the window.

Theodore Bolen, a near neighbor of the Neavilles, is held in jail as a suspect, blood hounds having trailed a scent to his home. Bolen's twelve-year old daughter states that her father awoke her as he was leaving the house, Friday night and he was gone for some time.

Rev. Coopridger returned from Mt. Vernon Wednesday afternoon. He states that the man who is accused of killing his sister, had been working for the family and being very poor, was befriended many times. It is the belief of the people of Mt. Vernon that this man evidently had planned the killing

and expected to burn the house, after obtaining what money he could find.

### WHITMAN-DREW—

The marriage of Miss Margaret Drew, oldest daughter of Patrick Drew, of 1411 Rock Island Road, and Leonard Whitman, of Detroit, Mich., took place at high noon Thursday. The ceremony was solemnized by the Rev. Fr. Foley, of St. Patrick's Catholic church.

The bride was becomingly attired in a blue tailored suit, with hat en costume. The attendants were the bride's sister, Mrs. C. G. Upchurch, of Atlanta, Ga., and her cousin, George Drew, of Dixon.

Following the ceremony a six-course luncheon was given for the wedding party and a few intimate friends and relatives at the home of the bride's father.

The bride and groom left immediately after the luncheon for Detroit, Mich., where they will reside for a short time, later making their home at Lorraine, Ind.

Mr. Whitman was recently made vice president of the Great Northwestern Shows company, and is an especially capable and industrious young man. His bride has resided in Dixon for the past sixteen years and has made many friends, who join in wishing a prosperous and happy wedded life.

### DINNER FOR SON—

Mr. and Mrs. George Coakley entertained last evening at dinner in honor of Mrs. Coakley's son, Philip Harold McGrath, who arrived in Dixon Thursday afternoon. He was given his discharge from the hospital on June 11th where he underwent an operation after his arrival from France. He was a member of the 101st Aerial squadron. His cousins Clark and L. Hess met him at Gilberts, Ill., where he stopped off to visit an aunt on his way home, and the remainder of the trip was made in the Hess car. The guests at dinner included Mrs. R. R. Hess and sons, Mr. and Mrs. Mosher and family, of Dixon, Miss Elizabeth Bogue, of Chicago, and Mr. and Mrs. Frank Wormell and family, of Sterling, and the Misses Gladys and Gertrude McGrath and brother, Lawrence, of Waukegan, all relatives, and a few other friends.

Lawrence McGrath also is a returned soldier, having fought in the Argonne.

### E. R. R. CLASS LUNCHEON—

Picnics are the order of the day and among the enjoyable ones held recently was that of the E. R. R. class of St. Paul's Sunday school, held last evening at Assembly park. Thirty-six people, including the members and their families, were in attendance. There were also a number of guests, including Miss McCready, Dr. and Mrs. F. D. Altman, Mr. Lambert and sons, Miss Gilroy, Mrs. Robinson, Mrs. Dale, and the Misses Raffenberg. A business meeting, at which it was decided to hold no meetings until September, when the first meeting will be held at the home of the teacher, Bert Robinson, followed the supper. Officers will be elected at the September meeting.

### ENTERTAINED FOR GUEST—

Mrs. L. M. Stevens and son-in-law, Roy Crabtree, entertained last evening for the former's niece, Miss Anna Hawken, of St. Louis, at their home, 715 Third street. The guests were Mr. and Mrs. William Jones, Mr. and Mrs. Harry E. Stevens, Mr. and Mrs. William Dew, Mr. and Mrs. Robert Kohlenhoefer, Mrs. J. D. Dubuque, Mrs. Heft and daughters, Zelma and Myrtle, John, Dewey and Cecil Parke, and Lloyd Birdsong. A very pleasant evening was passed in the enjoyment of music, both vocal and instrumental, and delicious refreshments were served.

### ENTERTAINED NEPHEW—

Dr. Marion L. White entertained yesterday her nephew Sergeant (First

class) Clarence White, who returned to his home in West Brooklyn on Wednesday, wearing three gold overseas service stripes. The West Brooklyn band and a large crowd of people from West Brooklyn and the surrounding country met him at the train and gave him a royal welcome home. He enlisted with a medical detachment at the outbreak of the war and landed at Newport News, Va., the fore part of last week. Sergeant White is a son of Dr. E. C. White, of West Brooklyn.

### ENTERTAINED LAF-A-LOTS—

Mrs. Spencer Henderson entertained the members of the Laf-a-Lot club, of Palmyra, at her home yesterday afternoon. Bouquets of roses and other garden flowers decorated the house and very excellent refreshments were served. A contest in making the names of twenty-five trees out of a given number of letters was one of the interesting diversions of the afternoon. There were present nine members and four guests, the latter including Mrs. Frank Beede and two daughters and a little nephew of Mrs. Harry Rhodes.

### SUNSHINE CLASS PICNICKED—

A large number of the members of the Sunshine Class of St. Paul's Lutheran Sunday school and ten guests enjoyed yesterday at the home of Mrs. John Praetz of the Hazelwood road. There they ate their picnic dinner under the beautiful trees and thoroughly enjoyed the day in the open air. After the dinner a business session was held and the society decided to hold a food sale Saturday, June 28th, the place to be decided later. The remainder of the afternoon was spent in the enjoyment of chat and various amusements.

### BAPTIST PICNIC SATURDAY—

The Baptist Sunday school will hold its annual picnic in Assembly Park Saturday afternoon. All members of the school and their friends are invited to meet in the park early Saturday afternoon. In the early evening a picnic supper will be served and for this bring individual dishes and silver, sandwiches, and something additional in the way of fruit, cookies, pie or any other picnic dish.

### VISITS IN DAVENPORT—

### ENTERTAINED AT DINNER—

### INTER NOS CIRCLE—

The Inter Nos Circle held its regular meeting yesterday at the home of Mrs. Dave Boos, who served a tempting luncheon to the members, all of whom were present. Red roses were the table flowers. The next meetings will be held in two weeks with Mrs. Ray Crammer.

### SUPPER PARTY—

Mr. and Mrs. C. A. Todd and Mr. and Mrs. T. Jason Miller entertain this evening with a supper party for Miss Staples and John Davies at the home of Mr. and Mrs. Todd.

### HELD JOINT MEETING—

The joint session of the Dorcas and Missionary societies of the Congregational church, held at the home of Mrs. Altenderfer yesterday, was largely attended by members of both societies and resulted pleasantly for all. The business session of the Dorcas society preceded the program of the Missionary society. Mrs. Percy Heckman conducted the lesson study, on the chapter entitled, "Sailmakers," taken from the book, "Women Workers of the Orient." Mrs. Altenderfer was assisted by her daughter, Mrs. Percy Heckman, in the serving of refreshments.

### PRACTICAL CLUB MEETING—

Largely social in its nature, the Practical club meeting of yesterday afternoon at the home of Mrs. H. A. Ahrens was a very pleasant one. A number of surprises added to the pleasure of the afternoon. The only business of much importance was the election of officers. All the former officers—Mrs. Fordham, president; Mrs. Charles E. Keyes, vice president; and Mrs. W. J. Worsley, secretary-treasurer—were re-elected. Mrs. Ahrens served a tempting collation during the afternoon.

### L.T. LELAND WEDS

Announcement has been made of the marriage of Lt. Percy Leland, of Modesto, Cal., to Miss Ethel Mampton, of San Francisco, on Saturday, June 14th. The announcement was made by Mrs. Leland's brother, Leo Hampton, as the bride is an orphan. Mr. and Mrs. Leland will make their home in Modesto where Mr. Leland is with the Firestone Tire company. ### A VISIT FROM TOWN FRIENDS

CHAPTER CXXV.  
"I've had a letter from a Countess," I said to Neil when he came home. "That is she is Countess—now," mentioning the name of an Italian well known for family and wealth.

"What do you mean?"  
"Just what I say. Blanche Orton has married him by this time. Want to read her letter?"

"Well I am glad for her. I haven't much use for the nobility but from what I have heard of him he is a decent sort considering."

"Oh, you American men! I never heard one of you praise a foreigner until we went to war, and now, unless it is because of their fighting you damn them with half praise."

"Blanche was a good sort." He paid no attention to what I had said. "I hope she will be happy. I fancy she never was with Orton. And Bab she tells the truth. She never knew that I accepted properties without investigating them. She wouldn't have helped me had she known."

"I am so glad she didn't know. I can feel kindly toward her now that I know that. I hope too that she will be happy. Then I gave expression to thought which often came to my mind when I saw married people who were evidently mismatched, and so unhappy. "It must be dreadful for a woman to live out her life with a man for whom she does not care; to live always without love, or loving."

"It is dreadful as you say for either man or woman," Neil returned. "And a good many live always without knowing anything of the happiness we, and others enjoy together."

We talked of Mrs. Orton, now a Countess, all through dinner. Then we took our walk to investigate the vacant lots in town. The place was so small, because of restrictions, that we could walk all over it in an hour, so we took Robert along. He was delighted that we talked of buying a lot and building a house of our "very own" as he expressed it. He adored the place, and was very happy in his school.

"A fellow can have some fun in a place like this! New York is all right when you've grown up, but there's no place for a fellow to play," he said as we stopped to look at a lot Neil had heard was for sale.

"He's right," Neil said to me. "Only I don't know that New York is so good for grownups either. Someway one gets nearer to the real things of life if they

have room to breathe instead of being cooped up between rows of brick and stone."  
"I think so too, Neil. One seems nearer God down here."  
"Are you going to buy this lot?" Robert interrupted.  
"I don't know son. We are only looking about tonight. We won't decide in a hurry—we can't. We have to save the money for it first."

"Will it take long?" disappointment in his voice.

"Not very if we all help."  
"I'll help all I can dad. Can I have a workshop in the attic like Tom Smith has?"

"You shall have a work shop some where if we build a house. He was very ingenious, and Neil encouraged him in every way."

"I think we were all a bit excited over the thought of owning a home once more. For before we went to bed Neil and I looked thru several magazines which had plans for inexpensive houses and talked excitedly of how we should like one or the other of them."

"It's innocent amusement, anyway," Neil declared when I laughed at our enthusiasm.

When we reached home we were surprised to see a big touring car in front of the house. Lorraine Morton and Ned Rayburn were sitting on the porch, waiting for us.

"We knew you hadn't gone far, because the door was unlocked. Think of living in a place where one could go out without locking everything up," Lorraine said as she followed us into the house. It had been some time since L had seen her, so leaving Ned and Neil to smoke, I carried her off to my bedroom to gossip. I told her all about Blanche Orton and she gave me the gossip of town friends. She had been to an affair at Mrs. Powers and had heard the host say that there wasn't a man in town he respected more than he did Neil Forbes. It made me so happy to hear such things. Neil had been publicly censured; it was good to know his worth was also publicly recognized. They remained until late. I fixed a chafing dish supper and we told them of our plans.

"You can't find two lots can you?" Ned asked while Lorraine blushed. "Lorraine and I may like a summer home near you." So amid congratulations and expressions of pleasure they left us.

"I'm glad for Lorraine. It's time she was married," Neil said yawning.

"She's not be so conventional now I'll bet."  
Tomorrow—To do Right Brings Peace and happiness.

## DEODORIZING THE EAST.

The Allies are cleaning up Constanti-  
nople. This is perhaps the most revolu-  
tionary thing that has occurred in the  
Turkish capital for 500 years. More  
than that, the Allies seem to be plan-  
ning to go ahead and clean up Turkey in  
general. The American Red Cross  
Commission has been asked to help.

"American sanitary engineers of the  
Goethals type are needed out here,"  
says an American doctor. "Sewerage  
systems must be installed throughout  
the Near East in hundreds of towns.  
Constantinople must be cleaned until it  
looks like a Swiss housewife's kitchen.  
Mosquito netting by the millions of  
bales must be brought over. Swamps  
and unhealthy valleys must be drained."

You will observe that the American  
doctor says "must," and so it will prob-  
ably be done. There is no stopping  
these frenzied occidental hygienists. And  
very likely they are quite right about it.  
But what a transformation!

When an American or western  
European thinks of the Orient, he in-  
stinctively thinks of dirt and bad smells.  
What would any eastern city be without  
those smells? Remove them, and the  
impossible will have been accomplished.  
—East and West will meet on a plane  
of common sanitation. But what a loss  
to the artistic eye and the olfactory  
nerve!

It hardly seems fair to the orientals,  
either. Have they no rights? How  
would Americans like it if Asiatics un-  
dertook to force their sanitary stan-  
dards over here?

It may be justifiable, however, as a  
measure of military retaliation. The  
Turks have committed intolerable  
crimes against civilization; therefore let  
civilization retaliate by cleaning it up.  
But it is cruel and unusual, at that.

## ENGLAND FOR THE LEAGUE.

A campaign to popularize the league  
of nations has been launched in Eng-  
land. Last Friday night Albert hall was  
packed with a crowd of more than 7,  
000 persons to hear Lord Robert Cecil  
and other speakers discuss the famous  
document and its possibilities for good.  
Enthusiasm for the league was evident  
throughout the meeting, and President  
Wilson's name was vigorously applaud-  
ed. However, there were a few present  
whom it bothered to the speaker. One  
man shouted: "What about Ireland?"  
Lord Robert quickly retorted: "Ireland  
was ably represented, if I may say so,  
by General Smuts and myself."

Lord Cecil explained why Germany is  
to be admitted to the league and was  
warmly cheered by most of the audi-  
ence, but there was more opposition  
than to his arguments for the league  
itself. One man shouted: "You bloody

that lets his wife pick out his stenog-

teacher to build a chicken coop 'cause

traitor," and was promptly ejected from  
the hall. Thus it is seen that while  
England is for the league, there are  
some Englishmen who are not satis-  
fied with the modification of the treaty  
which admits the enemy to the councils  
of the nations of the earth.

## NO SLUMPS AHEAD.

Pacific Northwest lumber mills have  
restored the wartime price of lumber  
and the wartime wage scales. After  
signing of the armistice prices and  
wages were cut by some mills, but sub-  
sequent demand for lumber and con-  
dition of labor supply disclosed that the  
reduction should not have been made.  
The business of the country, particu-  
larly in construction, is going ahead, and  
there is no likelihood of slumps in any  
line of useful industry.

## WORK FOR BRANDEIS.

Soon after the Wilson administration  
came into power an investigation of cer-  
tain railway operations was conducted  
and a certain eminent democrat declar-  
ed that if he had the running of the rail-  
roads he could operate them at a saving  
of some millions of dollars a year. Presi-  
dent Wilson appointed that gentleman  
to the supreme bench. Now the rail-  
roads, under government operation, are  
losing millions of dollars. Why not call  
the gentleman off the bench for a while

Willard said today that his training  
had reached the point where the

day is entirely dependent upon the  
amount of punishment his sparring  
partners can assimilate.

OVERFED CATTLE TO  
GIVE WEIGHT; 2 DIED

Conclusive evidence of overfeeding of  
cattle to give them weight when they  
were delivered to the North-Western  
stock yards was found by the veteri-  
narians who investigated death of sev-  
eral steers at the yards Wednesday,  
mention of which was made in The  
Telegraph; and as a result of the evi-  
dence gained by the veterinarians who  
conducted postmortem examinations the  
man who had sold the stock to G. L.  
Jeanguenat, stock buyer, refunded the  
money which had been paid for the  
stock rather than face prosecution.  
Direct evidence of severe indigestion  
and auto-intoxication was found by the  
doctors, and it was further estab-  
lished that the owner of the stock, which  
was sold to Mr. Jeanguenat by weight,  
had overfed the animals, and then had  
driven them through the heat to the  
stock yards for immediate weighing.

## OBITUARY.

### HERBERT D. McDERMOTT

Herbert Dennis McDermott, second son of Mr. and Mrs. Martin McDermott of Harmon, Lee County, Ill., passed to the great beyond at 9:30 o'clock Tuesday evening, June 17. He was born Jan. 2, 1897 and died at the age of 22 years, 5 months and 15 days, death being due to cerebral hemorrhage, with a cranial wound as contributory cause.

He is survived by his sorrowing parents, five sisters, Mrs. Isabelle Burhenn of Dixon, Henrietta, Rebecca, Margaret and Vernie, all at home; and one brother, Sgt. LeRoy McDermott, who was recently discharged from Camp Grant and who is now at home.

He was a bright and industrious young man of kind and loving nature and was beloved by all who knew him. After finishing the eighth grade in the country schools he graduated from a three-year course in the Harmon high school and passed a teacher's examination when but 15 years of age. Being too young to teach he took up farming as a vocation which he followed until he went to war, leaving Dixon for Camp Grant on Sept. 20, 1917. He spent five months in training in Co. M, 342nd Inf., being sent to Camp Greene, Charlotte, S. C., for about four months additional training before being sent overseas as a Corporal in Co. C, 58th Inf.

After landing on the coast of Ireland his unit was sent through England to France, where he took up the study of gas. On July 4 his company was in the parade at Paris, en route to the front where they went into battle a few days later. In the second battle of Chateau Thierry he was wounded on Aug. 7 by a machine gun bullet. After one operation he was booked for the front to lead his men as a Sergeant, but an abscess formed in his head and a second operation to remove the bullet was necessary. In six weeks he was booked for transportation to the United States as a casual, landing on Nov. 30 and being sent to Cape May where he underwent another operation. After the wound had healed he was sent to Camp Grant, arriving there April 13. He was soon discharged and arrived home on Easter morning.

Pall bearers at his funeral held on Thursday morning at Harmon, were: John Fielding, John McKel, John McTrenney, Lewis Long, Bernard Foley, Walter Parker.

The Golden Gates were opened Wednesday, the gentle voice said, "Come." And angels from the other side Welcomed our loved one home.

## PEACE SUMMARY

By Associated Press Leased Wire

Growing belief that Germany would sign the peace treaty was strengthened today by news of the fall of Scheide-mann ministry in that country. The premier had been one of the most outspoken of German officials in his opposition to the treaty. Paris advices indicate the expectation there that the cabinet formed by his successor will be one that will accept the allied terms. It is reported that Gustav Noske, the minister of defense, will head the new ministry.

From the current German dispatches it would appear that the majority socialists, the independent socialists and the centrists are in favor of signing the treaty, with the German national and democratic parties opposed to accepting the terms. As the first three organizations form an overwhelming majority in the national assembly, it appears the new cabinet will in effect receive a mandate to meet the demands of the centrist.

A situation has arisen in Italy that threatens to complicate the work of the peace conference. Premier Orlando last night submitted the resignation of his cabinet from an adverse vote in the chamber of deputies on a motion by the premier for a secret session at which the foreign policy of the kingdom would be discussed. The resignation has not been accepted by King Victor Emmanuel as yet, however, and it may be that Signor Orlando will remain in office for the purpose of carrying the work of peace conference in which he has been one of the prominent figures.

Should Premier Orlando quit office there apparently would be a considerable delay in the settlement of the Adriatic problem. In his address before the chamber prior to the vote, the premier said that the situation at present was grave and that Italy was facing "the most acute phase of the immense crisis arising from the war."

Meanwhile, notwithstanding the signs that Germany will accept the peace treaty, the allied forces are prepared for her refusal of it. Marshal Foch, it is reported, will be in command on a front extending from the Rhine to the Danube should a forward movement be necessary. Swiss advices say that Italian forces have begun to occupy Vorarlberg, in the extreme western part of Austria, in anticipation of a refusal on the part of either Germany or Austria to meet the allied terms. Switzerland, in the meantime, is prepared to maintain her neutrality, having called out troops to guard her northern frontier.

## Wilson Back in Paris After Belgium Visit

By Associated Press Leased Wire

Paris, June 20.—President Wilson and his party arrived here this morning at 9 o'clock after a two-days trip to Brussels and the war zone in Belgium. There was no formal reception and Mr. Wilson drove immediately to the Paris "white house." The president had a good night's rest and said that he was not tired. He expressed his enjoyment and interest in the trip he had taken.

At 11 o'clock the president went to the Hotel de Crillon and held a conference with the entire personnel of the American delegation to the peace conference, including Col. E. M. House, who returned last evening from his visit to England.

The effect upon the president's plans of the cabinet resignation in Germany and the further developments anticipated is uncertain. A German request for an extension of time to act on the treaty is looked for and it is understood that the president told the delegation today that he had fixed no date for his departure for home.

Amos K. Fry of Green Rock farm, Route 3, was in Dixon Thursday on business.

## NOSKE MAY FORM NEW GOVERNMENT TO ACCEPT PEACE

(Continued from Page One)

### NEW TREATY IS LONGER.

By Associated Press Leased Wire

Paris, Thursday, June 19.—(Delayed.)—The alterations and amendments incorporated by the council of four in the revised treaty make it a somewhat longer document than the draft originally submitted to the Germans and published in the United States. It now comprises 214 pages, five more than the original, and even this was effected by closer paging. At various points the drafting committee sought to adhere as far as possible to the original numbering of the articles and contrived to make up for insertions or omissions by combining or splitting articles.

As at first arranged, the new instrument still contains the original fourteen parts and 440 articles.

The article assuring Silesian coal and minerals to German industry now reads: "Poland undertakes to permit for a period of fifteen years the exportation to Germany of the products of mines in any part of upper Silesia transferred to Poland, in accordance with the present treaty, without export duties or restrictions, and permit the Germans to purchase these products on the same terms as the Poles."

In the revised draft, "the principal allied and associated powers" undertake to establish Danzig as a free city. This language, in which the responsibility of the five great powers for the creation of the new city and state is definitely assumed, is substituted for the original phraseology declaring merely that "Danzig is established as a free city."

The new article which replaces the original provision for the disarmament of Germany number 165, providing for reduction to a specified point within two months now reads in the English version:

"Up to the time at which Germany is admitted as a member of the league of nations, the German army shall not possess armament greater than that fixed in the table submitted in this treaty" and continues: "Germany agrees that after she has become a member of the league, armaments fixed by the table shall remain in force until modified by the council of the league. Furthermore she hereby agrees strictly to observe the decisions of the council in this respect."

### Change Polish Frontier

Important changes are revealed by a comparison of the old and new drafts relative to the new Polish frontiers and the Silesian plebiscite. The frontier changes correspond generally with those outlined in recent dispatches, but bring the Polish frontier nearer to Breslau, on the east, than was at first contemplated, and give Poland a new section of the Prussian province of Pomerania in exchange for the coast strip off the same province returned to Germany, although the council of four planned for a while to make all Pomerania, Germany on historic grounds.

Some of the changes in the treaty can be indicated only by reference to maps of the largest scale.

### Silesian Plebiscite

The provisions for a plebiscite in the Silesian regions show that the vote will be taken in virtually all of upper Silesia except small areas in the southwestern and northern corners which were awarded unconditionally to Czechoslovakia and Poland respectively. The plebiscite must be held between the sixth and eighteenth months after the signature of the peace treaty. The same conditions as regards the retirement of German armies and officials and the disbandment of workmen's

soviet, which were included in the Schleswig Holstein and East Prussian plebiscite provisions are found in that affecting Silesia.

A significant article of the treaty prohibits political prosecutions by either the Polish or German governments for any activities during the plebiscite in Silesia.

## PAPAL CONTROL POSSIBLE UNDER LEAGUE, SHERMAN

(Continued From Page One.)

ten races of history whose temples and altars are covered with the drifting dust of centuries.

Seventeen Catholic Members. "Of the original 32 member nations signatories to the proposed league, 28 are Christian nations and four are of other faiths. Of these 28 Christian nations 17 are Catholic nations either a majority or an overwhelming preponderance of the population being of that religious faith, 11 are protestant. The Catholic members are Belgium, Bolivia, Brazil, Cuba, Ecuador, France, Guatemala, Haiti, Honduras, Italy, Nicaragua, Panama, Peru, Poland, Portugal, Uruguay, and Czechoslovakia. The 17 nations will be represented in the league in all human probability by Catholic delegates.

"That church represents in its membership either a majority or almost an entirety of the several populations. The sway over those peoples, their implicit faith in the infallibility of the head of this great religious organization is supreme. It is a power for good. I cheerfully bear witness to its support of stable government and above all, its steady opposition to a socialistic state, disorder and bolshevism in its various forms and manifestations. But the head of the church proclaims and teaches his infallibility. The separation of church and state might continue. The peril lies in the claim of papal power never abjured, never disavowed. The temptation to enforce that belief might break down every barrier built up by centuries of struggle and sacrifice.

May Revive Slavery. "Shall the United States commit itself to the mercy of a power from which our ancestors delivered us? Shall we risk entangling ourselves and our posterity in the toils we have escaped through their wisdom and the warnings they have left to guide us in the duties and perils of our generation? The covenant of the league of nations bears within its folds a reactionary power more fatal and insidious than a Prussian helmet, more dangerous future wars.

"The states invited to accede to the covenant of the league of nations are Argentina, Chile, Colombia, Denmark, Netherlands, Norway, Paraguay, Persia, Salvador, Spain, Sweden,

Switzerland and Venezuela. All are Christian races with the exception of Persia. Of the twelve invited Christian states, seven are Catholic, viz: Argentina, Chile, Colombia, Paraguay, Salvador, Spain and Venezuela. Therefore 20 of the 40 equal votes of the Christian nations members of the league are spiritually dominated by the Vatican.

Vatican Foremost Advocate. "The Vatican is a most earnest advocate of the covenant of the league of nations. On March 16, President Wilson conferred with the Vatican at Rome. The pope, among other things said referring to the league of nations: 'President Wilson put the matter so clearly that my doubts began to melt and before our interview closed agreed with him on the main lines of his plan.'

"Miraculous conversion or the deep traditional wisdom of the holy see? The great pontifical dignity gives no random interviews. Neither can we believe both the president's visit and the interview were not for a preconceived purpose.

"The controversy over Fiume and the resulting troubles recall the belief among many Italians that the Vatican is not in sympathy with civil government of Italy on this subject. It is fair to infer that the pope cordially approves of President Wilson's stand against Orlando and the Italian civil authorities. While the evidence is circumstantial, it all tends to connect President Wilson with influences unfriendly to temporal power of Italy and inimical to the future welfare of the United States."

### DISCUSS NEW PROBLEMS

Paris, June 20.—The council of three, composed of Premiers Lloyd George and Clemenceau and President Wilson, met this afternoon and it is understood discussed the German situation and the Italian cabinet crisis.

The council also was expected to take up the uncompleted sections of the Austrian peace treaty.

## Monthly Report of the Palmyra Co-Operative Cows-Testing Association

By E. G. THIEM, Tester

This association completed, during the month of May, its most successful butterfat production. There were 468 month's work with reference to milk and cows and 30 herds on test, that averaged 932 pounds of milk or 30 pounds per day and 32.72 pounds fat, for the month. This comparatively high production was obtained in spite of the fact that there were more cows milking over 6 months and a smaller number of fresh cows than in any preceding month. Ninety-one cows produced over 40 pounds fat and twenty-four cows made over 50 pounds in 31 days. These excellent records were the result, largely, of the abundant blue grass and clover pastures to which most herds had access since the beginning of the month and also to the excellent physical condition of the animals which results from fresh air, sunlight and exercise out of doors.

The fact that some dairymen favor the use of clover pasture, usually red, mammoth or alsike, while others strongly recommend blue grass leads us to a comparison of the merits of these two forages. It is conceded by most authorities that blue grass furnishes the best early pasture, especially during the months of April and May, when this plant makes its best growth. This has been found true by its effect on the production of herds in this association. The highest records during April and May were made by cows that had at their disposal an abundance of fine blue grass pasture, usually supplemented with some grain. On the other hand, blue grass stops growing with the appearance of the warm days of late June and early July and unless such pasture is understocked, cattle will suffer from short pasture and a consequent decline in production through the summer months. However, blue grass will come to life with the reappearance of the cooler weather and rains in the early fall, and grow rapidly furnishing again a very succulent, palatable feed.

While clover does not grow so rapidly in the early spring, it does produce more abundantly through the season and so furnishes more palatable feed per acre than does blue grass. Clover also will grow through the summer months retaining its succulence, where turns dry and brown at this time. There as blue grass ceases growing and often are several exclusively clover pastures in this community which are producing very abundantly making it possible to

pasture a large number of stock on a small acreage. But at the same time, there is the ever-present danger of bloat with clover which seems to result more readily from short, especially white clover than from the longer-stemmed varieties like mammoth, red, and alsike. Turning cows on such pasture when they are hungry and when the dew is on, favors bloat. Henry recommends placing dry forage, such as hay or straw, in feed racks in the pasture as a preventive. Cattle and sheep turn instinctively to these when bloat threatens.

Perhaps the best solution to the pasture problem is to have both blue grass and clover—using precautions with the latter—in separate fields to which the herd may be turned alternately beginning with the blue grass in the early spring. Blue grass, alone, however, is very satisfactory when supplemented through the hot summer months with other green roughages, such as peas and oats, green corn, cutclover, cow peas, etc. or silage. But, without these, blue grass is unsatisfactory unless a large acreage per herd is provided.

The advisability of feeding concentrates on pasture may be summed up in the following experiment:

Roberts of the Cornell Experiment Station took a herd of 16 cows, lightly fed the previous winter, and divided them into two lots of eight each. Each cow in Lot 1 was given four quarts of rich concentrates daily while those in Lot 2 received none. When the grass began to fall in August, silage was fed. The returns for 22 weeks are as follows:

	Lot I Pasture with concentrates.	Lot II Pasture without concentrates.
Concentrates fed (pounds)	5,200	
Milk yield (pounds)	22,629	17,698
Excess of milk in favor Lot 1	4,931	
Gain in weight per cow, pounds	166	113
Ave. per cent fat in milk	4.67	4.70
Ave. per cent total solids	14.08	14.19

In this trial the pastured cows getting concentrates gave 28 per cent more milk than those getting no concentrates and each pound of grain fed returned about 1 lb. of milk. The following year no concentrates were fed to either lot while on pasture. The six months' yield from 6 cows that remained in each lot was as follows:

	Lot I Fed grain.	Lot II No grain.
Average yield per cow (6 months)	3440	2960
In favor of Lot I, pounds	480	

Though getting no concentrates, Lot I returned 480 or 16 per cent more milk than Lot II. Roberts holds that this was due to feeding concentrates the preceding year. The benefits were especially marked in the case of the heifers, the 2 and 3-year-old fed concentrates the year before, developing into better animals than their mates which had been fed no concentrates the previous year while on pasture. Similar experiments might be quoted, but one can draw certain conclusions from this one. The writer strongly recommends feeding from 4 to 8 pounds of concentrates, mostly made up of the cheaper grains, oats and barley to cows yielding from 30 to 50 pounds milk daily, in addition to pasture.

E. G. THIEM, Tester.
